

**Share, Club, Draft, Money Manager, Traditional IRA & Roth IRA  
Share Accounts  
Effective as of May 22, 2018**

**RATE INFORMATION**

The dividend rate and annual percentage yield (APY) on your accounts as of the last dividend declaration date are set forth below. The APY is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for a 365-day period or the term of the account.

**NATURE OF DIVIDENDS**

Dividends are paid from current income and available earnings after required transfers to reserves at the end of the dividend period.

**COMPOUNDING AND CREDITING**

Dividends will be compounded and credited monthly. The dividend period begins on the first calendar day of each month and ends on the last calendar day of each month.

**BALANCE INFORMATION AND COMPUTATION METHOD**

The minimum balance required to open each account and earn dividends is set forth below. The average daily balance method is used to calculate dividends on your account. This method applies a periodic rate to the average daily balance in the account for the period. The average daily balance is determined by adding the full amount of principal in the account for each day of the period and dividing that figure by the number of days in the period.

**ACCRUAL OF DIVIDENDS**

Dividends will begin to accrue on cash deposits and non-cash deposits (e.g. checks) on the business day you make the deposit to your account. If you close your account before accrued dividends are credited, accrued dividends will not be paid.

**TRANSACTION LIMITATIONS**

For a Share account for which transfer limitations apply, no more than six (6) preauthorized, automatic, or telephone transfers may be made from these accounts to another account of yours or to a third party in a calendar month, and no more than three (3) of these six (6) transfers may be made by check, draft, or debit card to a third party. If you exceed these limitations, fees may be assessed to your account.
